SUMMARY

Associate Software Engineer with expertise in AI, Cloud Computing, and Full-Stack Development, currently pursuing M.Tech in AI & ML at BITS Pilani. Skilled in ASP.NET, ReactJS, Python, AWS, SQL, Docker, and CI/CD with hands-on experience in building scalable enterprise and AI-powered applications. AWS, Azure, Databricks, and GitHub Copilot certified professional passionate about innovation, cloud technologies, and machine learning solutions.

PROFESSIONAL EXPERIENCE

Tech Mahindra, Associate Software Engineer 03/2025 – Present | Hyderabad, India

- Developing a **multi-tier Blood Bank Service Management System** to streamline donor registration, blood inventory tracking, and inter-bank transfers.
- Designing and implementing **RESTful APIs** using **ASP. NET Web API** for seamless data communication between the front-end and back-end.
- Building a **responsive and user-friendly interface** with **HTML5, CSS3, Bootstrap, and jQuery** to ensure smooth user experience across devices.
- Integrating **Entity Framework** with **SQL Server** for efficient database operations, including donor, hospital, and blood stock management.
- Implementing **role-based authentication and authorization** to enhance system security and access control.
- Collaborating in **version control and CI/CD processes** using **Git, Jenkins, and Docker** for continuous integration and deployment.

Outlier, Prompt Engineer 08/2024 – 03/2025

- Designed and fine-tuned advanced prompt architectures to optimize the output of AI language models, ensuring accuracy, relevance, and alignment with project objectives.
- Conducted iterative testing and refinement of prompts to maximize efficiency, creativity, and contextual understanding across diverse use cases.
- Leveraged expertise in natural language processing (NLP) to craft tailored prompts that enabled dynamic problem-solving and user-specific content generation.
- Analyzed model behavior, identified performance bottlenecks, and implemented data-driven improvements to enhance AI responsiveness and reliability.

Asterisc Technocrat PVT. LTD , Web Developer Intern 07/2023 – 08/2023 | Nagpur, India

- Designed and implemented responsive user interfaces with React, leading to a 15% improvement in user satisfaction scores.

EDUCATION

Master of Technology, Bits Pilani 04/2026 – Present | Hyderabad, India
Artificial Intelligence & Machine Learning

Bachelor of Engineering, Sant Gadge Baba Amravati University 08/2020 – 06/2024 | Amravati, India
Computer Science and Engineering
CGPA- 8.37 | Percentage - 73.62%

Higher Secondary Certificate (Class XII), New English High School Main 06/2019 – 04/2020 | Amravati, India
Science(PCM)
Percentage- 70.92%

Secondary School Certificate (Class X), Dnyanmata High School 06/2017 – 04/2018 | Amravati, India
Percentage- 84%

CERTIFICATES

Certified Cloud Practitioner (CLF-C02) 
Amazon Web Services (AWS)
| Issued Aug 2025

- Validated foundational knowledge of AWS Cloud services, security, architecture, pricing, and billing concepts.
- Demonstrated understanding of scalable, secure, and cost-effective cloud solutions using AWS technologies.

Certified AI Practitioner (AIF-C01) 
Amazon Web Services (AWS)
| Issued Apr 2026

- Validated knowledge of AI, Machine Learning, and Generative AI concepts on AWS cloud platforms.
- Demonstrated understanding of AI/ML workflows, AWS AI services, and responsible AI practices.

Azure Data Fundamentals (DP-900) 
Microsoft Azure | Earned May 2026 | Credential ID: **F2FD4E7FF816D421**

- Demonstrated foundational knowledge of Azure data services, relational databases, and cloud analytics concepts.
- Gained understanding of modern data workloads, data processing, and visualization in Microsoft Azure.

GitHub Copilot (GH-300) 
GitHub / Microsoft | Earned May 2026 | Credential ID: **CE333780A124BA7D**

- Validated expertise in AI-assisted software development using GitHub Copilot and prompt engineering techniques.
- Demonstrated understanding of responsible AI usage, code generation, and developer productivity workflows.

TECHNICAL SKILLS

Tools and Languages: Java, SQL, C, C++, Python, JavaScript, Excel, BI, Tableau, SSMS, Jupyter Notebook, Git
Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn
Data Visualization: Power BI, Tableau, Excel Dashboard
Data Analytics Skills: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Data Visualization, Statistical Analysis, KPI Reporting, Business Intelligence
Frontend Technologies: ASP .NET Core MVC, NextJS, ReactJS, AngularJS, Wordpress and Elementor, Bootstrap, HTML, CSS, Javascript, Django
Backend Technologies: NodeJS, ExpressJS
Databases: Mysql, MongoDB, SSMS
DevOps: Docker, Kubernetes, Jenkins, Git, CI/CD, AWS
CS Fundamentals: DBMS, OOPS, Computer Networks, OS, DSA, AI, Data Science, ML

PROJECTS

Credit Risk & Loan Default Analysis, Python, SQL, Power BI, Scikit-Learn

- Analyzed loan applicant data to identify patterns associated with loan defaults.
- Conducted statistical analysis and KPI reporting using Python and SQL.
- Developed predictive models to classify high-risk customers with strong accuracy.
- Created Power BI dashboards for risk monitoring, customer segmentation, and loan portfolio analysis.

Banking Customer Churn Analysis, Python, SQL, Power BI, Pandas, NumPy

- Analyzed 10,000+ banking customer records to identify factors affecting customer churn.
- Performed data cleaning, feature engineering, and exploratory data analysis using Python and SQL.
- Built interactive Power BI dashboards to monitor customer retention, account activity, and churn trends.
- Identified high-risk customer segments and provided actionable business recommendations that could improve retention strategies.

Credit Card Fraud Detection Using ML, Python, Numpy, Pandas, SkLearn, Streamlit

- Developed and deployed supervised learning algorithms, such as logistic regression, decision trees, and random forests, to accurately identify fraudulent transactions in real-time.
- Conducted comprehensive data preprocessing and feature engineering to create informative variables.

AI Customer Support SaaS Platform, Python3, Nextjs, Typescript, LLM, Ollama, Gen AI

- Built a full-stack AI-powered customer support platform using modern AI and web technologies.
- The platform enables users to upload PDFs, interact with an intelligent AI assistant, manage conversations, and analyze chat performance through a professional SaaS dashboard.

Blood Bank Service Management, ASP .Net, SSMS, HTML, CSS, JS

- Developed a full-stack **Blood Bank Service Management System** using **ASP .NET MVC, Web API, and SQL Server** to manage donors, camps, hospitals, and blood inventory.
- Implemented **CRUD REST APIs, role-based authentication**, and responsive UI using **Bootstrap, HTML5, CSS3, and jQuery**.
- Utilized **Entity Framework** for database operations and **Git, Jenkins, Docker** for version control and deployment.

AWARDS

Innovator of the Month  , *Tech Mahindra* 29/12/2025
Honored to be recognized as Innovator of the Month at Tech Mahindra. Grateful for the opportunity to work on innovative solutions and learn from such an inspiring team. This recognition motivates me to keep pushing boundaries and contributing to impactful work.Thank you to everyone who supported and guided me on this journey!

AI White Belt  , *Tech Mahindra*
This milestone marks my first step in the AI journey, where I’ve gained foundational knowledge in Artificial Intelligence, showcasing proficiency in AI concepts and commitment towards Tech Mahindra’s AI vision and strategy.

ORGANISATIONS

Tech Mahindra x AWS Community, Community Participant 02/2026 – 02/2026 | Hyderabad, India
Participated in the Tech Mahindra x AWS Community Launch event focused on cloud technologies, scalability, governance, and AWS ecosystem learning. Connected with industry professionals and gained insights into real-world cloud adoption and innovation practices.
